Blessed Gérard's Care Centre is a Public Benefit Organisation (PBO No. 18/11/13/2777) founded and owned by the Brotherhood of Blessed Gérard, which is an Association of the Roman Catholic Church and the Relief Organisation of the Order of Malta in South Africa.

Blessed Gérard's Children's Home

Blessed Gérard's Hospice HAART Programme

We need your support!

Blessed Gérard's Children's Home looks after and gives a home to orphaned, sick, abandoned, formerly neglected, abused, malnourished and physically and mentally challenged children since 2000.

Blessed Gérard's Hospice HAART Programme provides Highly Active Anti Retroviral Therapy (HAART) for poor AIDS patients free of charge since 2003.

Blessed Gérard's Children's Home is currently full to its capacity of 40 places. Up to eight children have to share a bed room (i.e. in the babies' room). We are constructing an extension to enable us to provide double-bed-rooms for our older (secondary school age) children in a family-type setup, where they can grow up as they would in a real family getting introduced to "real life" by participating in cleaning, shopping, cooking, washing dishes, washing and ironing their laundry etc. This will increase our capacity by 10 places. A second extension will provide a larger dining room, play room and study room for the younger children. We would love to build a third extension providing 24 more places (for primary school age children), but whether or not we can do this will depend on the success of our fundraising.

Blessed Gérard's Hospice HAART Programme used the facilities of the Inpatient unit of Blessed Gérard's Hospice until now.
We are constructing a new HAART Clinic to create more privacy for our AIDS patients and better consulting rooms for our doctor and nurse and safe storage for the antiretroviral medication.

We provide our services to the people free of charge as they would have no means to pay for them anyway.

We depend entirely on fundraising to finance our work and ask you to support us generously!

Construction progress
in October 2007

HAART Clinic

HAART Clinic (ground floor)
Offices & staff accommodation (1st floor)
Children's Home Extension 1 (2nd floor)

Children's Home

Extension 2 (1st floor) and Extension 3 (2nd floor)
